The Partyman Company are a children's entertainment and events company.

The Partyman Company was started by James Sinclair.

Jimbo started the company at the age of 15, when he first started performing at children's parties and also DJ'ing.

Soon Jimbo added other entertainers and face painters to his books.

The partyman company were and remain unique because unlike entertainment agencies all the partyman entertainers work exclusively for the partyman company.

Before long Jimbo had a whole army of young entertainers working for him.
